Facebook Scholarship Groups — Findings & Files

Muhammad Ismail — final-year BS Energy Engineering, UET Peshawar — 7 November 2026

Groups searched: Pakistan Scholarships League (private, 283,000 members) and Scholarship Network (public, 797,000 members). Posts checked 7 November 2026; files downloaded the same day.

1. The two groups

Pakistan Scholarships League — private group, 283,000 members, "A scholarship group for Pakistanis." Run by **Junaid Ahmad** (confirmed: he posted the CSC reminders, the acceptance-letter template and the Europass CV template himself). This is the group whose Files section already gave you the professor-outreach documents. Its strength is guides, templates and senior advice — not daily listings.

Scholarship Network — public group, 797,000 members, "offering Fully Funded Scholarships e.g. Chevening, DAAD, Erasmus Mundus, CSC, Turkish Government, Commonwealth." Posts new scholarship listings every day (20 on 7 November alone), mostly linking to the aggregator site nspscholarships.com. Its Files section is nearly empty — only 2 files, neither relevant (a PhD-only spreadsheet and a Botany professor email list). I could not verify from the group's visible information that Waqar Baig is its admin, but this is the live, active group under that name.

> **Read this first — the timing problem.** Almost everything posted in both groups right now is for **Fall / September 2027 entry**. You graduate in October 2027, so you cannot start in September 2027. None of the deadlines below is an application you should submit now. Their value is knowing which scholarships to watch and when their 2028 cycles open — and having the documents ready before they do.

2. Opportunities to watch for September 2028 entry

Scholarship	What it is	2027-cycle facts (pattern for 2028)	Fit for you
Erasmus Mundus Joint Masters	Full scholarship, 1–2 year joint master's across Europe	37 new programmes selected under the 2026 call for the 2027 intake (posted 6 Aug 2026). Your Tier A — DENSYS 2.0, REM+, STEPS, GrEnFIn — 2028 deadlines unpublished.	**Top priority.** Applications for Sep 2028 open roughly Oct–Dec 2027. The 39-page application guide is in your files.
CSC — China (Type A via HEC / Type B direct)	Full scholarship for master's in China; needs professor acceptance letter	XJTU High-level Graduate Program open, deadline **28 Feb 2027** (Sep 2027 entry). CUG High-level Postgraduate	**Strong fit.** Start professor outreach Oct–Nov 2027. Acceptance-letter template is in your files. Do not send the template until a professor agrees first —

		2027 also open. 2028 cycle opens ~Oct–Nov 2027.	Junaid Ahmad's own warning on the post.
University of Twente Scholarship (UTS), Netherlands	Merit award €3,000–€22,000 for one year, MSc	Opens 15 Oct 2026, deadline **1 Apr 2027, 16:00 CET** (Sep 2027 start). Needs provisional admission first + IELTS 6.5 / TOEFL 90 + top 5–10% of class.	Watch for 2028 cycle (~Oct 2027). **Partial only** — it does not pay tuition for you and does not cover all living costs.
HBKU, Qatar	Graduate funding, Doha	International deadline **1 Feb 2027** (Fall 2027). STEM master's: 75% tuition waiver + 7,000 QAR/month stipend, 10 hrs/week research-assistant work.	Watch for Fall 2028 cycle (opens ~Oct 2027). Not fully funded for master's — 25% of tuition remains and housing comes out of the stipend.
Italy — Sapienza & Milan-Bicocca	University scholarships, master's available	Both listed 7 Nov 2026 for 2026 entry (Sapienza; Milan Excellence Scholarship, PhD level in that post).	Check the 2028 calls when they open. Italy also has the DSU regional grants — worth adding to your list.
USA — top 300 universities, free applications / fee waivers	Junaid Ahmad's list, updated 1 Nov 2026, QS 2027 rankings	Fall 2027 admissions. Claims: no application fee or fee waivers at many universities; ~90% of programmes no longer require GRE; no acceptance letter needed for US admissions.	Useful as a **pattern for Fall 2028**. Verify each university's waiver on its own admissions page before relying on it — the list is one group post, not an official source.
Commonwealth PhD (UK), Clarendon (Oxford), Switzerland Govt	Prestigious, fully funded	All listed 7 Nov 2026. Commonwealth PhD and Swiss Govt Excellence are PhD/postdoc level. Clarendon covers master's too but is extremely competitive.	Not for your master's round now. Keep Clarendon in mind only if you apply to Oxford.
DAAD (Germany), Chevening (UK), Türkiye Burslari	Flagship government scholarships	Named in the Scholarship Network description; no fresh deadline posts found today.	Already in your booklets. DAAD EPOS needs 2 years' work experience — not a first application for you; DAAD study scholarships and Chevening open ~Aug–Nov 2027 for 2028 entry.

Also seen in the groups and **not** for you now: a fully funded PhD position in Finland (posted 7 Nov), a postdoctoral position at the University of Fribourg, Switzerland, and funded PhD/MS positions at Texas A&M University–Kingsville in AI. The Finland post is worth a look only if you later consider a PhD.

3. Guides and templates downloaded — 12 files

All in **facebook_scholarship_groups** in your files. The 10 group files were downloaded from the Pakistan Scholarships League (its Files section plus the two template posts). Scholarship Network contributed nothing — its Files section holds only the 2 irrelevant files above.

File	What it is	Use it for
Erasmus_Mundus_Application_Guide_Amir_Kamran.pdf (39 pp)	Application guidebook by Amir Kamran, Erasmus Mundus Association Pakistan, 28 Sep 2024	Your Erasmus applications — CV and motivation-letter tips written for Pakistani students
How_to_Write_SOP.pdf (16 pp)	SOP writing guide	Drafting your SOP / motivation letter
How_to_Write_CV_SOP_and_Email_to_Professor.pdf (9 pp)	Combined guide: CV, SOP and professor email	Your professor-outreach round (CSC/China, RA/TA applications)
Suggestions_for_LOM_and_CV.pdf (1 p)	Letter-of-motivation and CV suggestions	Quick checklist before you send documents (opens fine — one commenter said it would not open, but the downloaded copy works)
Research_Proposal_Guide.docx	Research-proposal structure (master's 8–10 pp, PhD 11–18 pp) + study-plan structure	CSC study plan / research proposal; note in the post: top universities and professors prefer a research proposal over a study plan for master's
CSC_Acceptance_Letter_Template.docx	CSC professor acceptance-letter template (Junaid Ahmad, 2023)	Only after a professor agrees to sign — add the university name at the top, fill in your details
Acceptance_Letter_Template.docx	Second acceptance-letter template from the Files section	Same use; pick the cleaner of the two
Europass_CV_Ready_Made.doc	Ready-made Europass CV template (Junaid Ahmad, 2022; 1,025 reactions, 224 comments)	Fill-in CV base — but note the group's own advice: for research degrees, content matters more than the Europass format, and never send a professor a CV that lists "MS Office / Excel" as skills
Europass_CV_Fresh_Graduate.doc	Europass CV template for fresh graduates	Alternative CV base
Professor_Reminder_Email_Template.doc	Follow-up / reminder email	Chasing a professor who has not replied

	body for professors	
Sample_CV_Sharjeel_Anjum.pdf (3 pp)	A member's real CV + cover letter (job application for the Netherlands)	Reference example only — it is a job CV, not a scholarship CV
US_Top300_Free_Applications_Fall2027.txt	Full text of Junaid Ahmad's 1 Nov 2026 post: US universities with free applications / fee waivers	Reference list for Fall 2028; verify each waiver on the university's own page

4. What the groups themselves teach (worth knowing)

- **Research CV structure** (Abid Afridi's post, 2 Jun 2026): Education, Research Experience, Work Experience, Research Skills, Research Interests, Publications, Honours & Achievements, Language Scores, References (2–3). Master's CV max 2 pages; PhD max 3. If your CV is short, add a Major Courses section.
- **Professor emails:** keep them short — a group member asked whether his email to a professor was too long, and the discussion is a useful warning. Your outreach emails already follow this.
- **SOP help:** a popular post explains using ChatGPT to refine a motivation letter (copy the position description, then refine) — and a separate post warns that SOPs, papers and proposals must not read as AI-generated, or professors will dismiss them. Your rule stands: humanised wording, your own story.
- **Erasmus tip from the group:** for the 2027 intake, 37 new Erasmus Mundus programmes were selected — the post lists 15 (STRAINS, AMASE, FIPDes, EGEI, GeoTech, EMMIR, Euroculture, Re:Anima, EMILDAI, QuanTEEM Plus, WAVES Plus, MAIA, Smart SustainChemE, SMARTLight, SSI2). None is an energy programme, but the full list of 37 is linked in the post.

5. What to do next

- **Now:** read the Erasmus guide (39 pp) and the "How to write CV, SOP and Email to Professor" guide (9 pp). Build your research CV from the Europass fresh-graduate template using Abid Afridi's 9-section structure.
- **Oct–Nov 2027:** CSC professor outreach begins (acceptance letters), Erasmus 2028 applications open, Chevening and Türkiye Burslari open. Your LOR plan already names Prof. Dr. Farid Ullah Khan, your Tarbela supervisor and your floating-PV lead — first ask August 2027.
- **Watch, don't apply yet:** Twente UTS (2028 cycle ~Oct 2027), HBKU Fall 2028 (opens ~Oct 2027), XJTU/CUG CSC 2028 (opens ~Oct–Nov 2027).
- **Do not** apply to any Fall 2027-entry scholarship — you will not have your degree by September 2027, and CSC Type A via HEC does not allow incomplete degrees on the closing date.

> **Sources & limits.** Group posts were read through your connected Facebook account on 7 November 2026; the two "Scholarship Network" listings pages link to nspscholarships.com, an

aggregator — deadlines for Twente (1 Apr 2027) and HBKU (1 Feb 2027) were cross-checked against independent scholarship guides. The XJTU deadline (28 Feb 2027) and the Erasmus 37-programme update come from the group posts themselves. Verify every deadline on the official university or programme page before you apply. Files are group members' shared documents, not official publications — use them as templates, not as authority.
